

Body Parts Game

Problem

Given a list of body parts a team of participants must arrange themselves in such a way so that only the listed body parts are touching the floor.

Limitations

1. Only the named body parts can be in contact with the floor.
2. The size of teams dictates the maximum number of body parts

Materials

1. List of body part combinations.
2. One adjudicator per team if possible.

Rules

1. The game referee will read a list of body parts and quantities out.
2. The teams need to remember the list
3. They then need to arrange themselves so that only the listed body parts are in contact with the floor.
4. Once arrange they call for adjudication. If they are correct then the task is complete. If they are not correct they will be told that they are not correct but not what the error is.
5. The teams to be awarded points for order they finish in.
6. The number of body parts as the game progresses.

Body Parts Game

Example Game for teams of 7 people

	Feet	Hands	Elbows	Knees	Buttocks	Heads
