

Bomb Alert

Game

To safely remove the bomb from the premises to the safe zone.

Equipment

1. Ball (Tennis, Football, Basketball)
2. Poles (2,4 or 6 – depending on the difficulty)
3. Container (bucket, tin, box)

Rules

1. A bomb has been found on the premises and needs to be moved to the safe zone.
2. You must move the bomb to the safe zone, however the bomb cannot be touched, cannot be thrown any distance or make contact with the floor.
3. As soon as the bomb is moved the self-destruct timer starts and the bomb will detonate if it does not reach the safe zone in time.
4. You must avoid or navigate around any obstacles on your way to the safe zone.

Variations

- Vary the size of the ball, the number of poles, the size of the container and / or the time available to alter the difficulty of the task.
